

TENANTS SERVICE CHARGES

WHAT WE CHARGE YOU

What you pay is broken down into two main areas:

- Rent Charges– for the management and maintenance of your home
- Service Charges – for communal services around your home and in your neighbourhood.

ADVISING YOU OF YOUR SERVICE CHARGES

The services you receive are shown on a letter that we send you annually in March each year, which is called a variation notice. This letter also advises you of your rent charges for the forthcoming year.

WORKING OUT YOUR SERVICE CHARGES

Each service charge consists of:

- The cost of providing the service.
- An administration fee for monitoring and management of the services and collecting and working out the charge.

This cost is then divided by the number of homes that benefit from the service. Some properties receive more services than others (depending on the property type) so people will pay different service charges.

We aim to provide efficient well managed services so the cost of the service may change as we vary the services to provide best value.

HOUSING BENEFIT AND UNIVERSAL CREDIT

If a charge is not eligible for Housing Benefit this will be indicated in the list below.

The letter we send you in March each year called a variation notice, will indicate which charges are not covered by Universal Credit.

WHAT IF I AM BEING CHARGED FOR A SERVICE I DON'T RECEIVE?

If you think we have made a mistake, please contact us and we will investigate it. If we have got your service charges wrong, then we will amend them.

TYPES OF SERVICE CHARGE;

Grounds Maintenance
